

Introducing the Bowls Club App

The club is introducing a new Bowls Club App to help members keep up to date with fixtures, rink usage, team selection and important fixture information. The app is intended to make it easier for members to see what is happening at the club and to respond promptly when asked about availability or team selection.

Getting the App

The app has already been published on the **Apple App Store**. Members using an iPhone or iPad should download it from the App Store.

The Android version will also be made available through the **Google Play Store** once published.

Logging In

You do **not** need to create a new account.

Username: your registered club email address

Password: a temporary password sent to that registered email address

Please check your inbox and, if necessary, your Junk or Spam folder.

What the App Does

The app gives members access to the main information they need in one place. You will be able to:

- View club fixtures and events
- See diary information for daily and monthly activity
- Check green and rink usage
- View fixtures you are involved in
- Respond when asked about availability
- Accept or decline team selection
- See published team and fixture details
- Receive updates when important fixture details change

The Dashboard

The **Dashboard** is your main home screen. It highlights items that need your attention, including fixtures where you need to RSVP, team selections waiting for your acceptance or decline, and your upcoming accepted fixtures. Please check it regularly, especially during the playing season.

The Diary

The diary allows members to view activity by **day** or by **month**. The Daily Diary gives a clearer view of what is happening on a particular day, while the Monthly Diary gives an overview of club activity across the month.

Rinks and Green Usage

The app helps show how rinks and greens are being used. This is useful for seeing when rinks have been allocated for fixtures, matches or other club activity. Please check fixture details again nearer the day, as arrangements may change.

Fixtures and Team Selection

For some fixtures, you may first be asked whether you are available. You can respond **Yes**, **Maybe** or **No**. If you are later selected to play, you may then be asked to **accept** or **decline** your place. Prompt replies help captains and selectors organise teams.

Please help us keep things up to date

The app will work best if members use it regularly and respond promptly. Please make sure the club has your correct email address, as this will be used for your login and for important app-related messages.

Thank you for helping us introduce the new Bowls Club App.
